Village Awarded Community Technical, Managerial, and Financial (TMF) Support for Lead Line Replacement

Grant Awards \$483,000 for Service Line Material Verification

BLISSFIELD, MICHIGAN, June 10, 2024--- The Village of Blissfield will receive \$483,000 of TMF Funding from the Michigan State legislatures appropriated \$48 million for our communities' service line material identification project. This project includes 665 service lines, each to be identified at three different locations including: inside the home, and on both sides of the curb stop.

"I am thrilled to see us as the recipient of this grant funding, this will help fund a mandated requirement without putting further financial burden on our citizens" said Village Treasurer Brandon Hudson. Village staff is excited to be receiving this grant funding as staff has worked hard to seek alternate funding sources to help the Village meet our requirements, while providing the same level of service without placing further financial burden on our residents.

Many thanks to all who made this funding possible, to those administering the grant and especially to our dedicated staff that helped in the grant application process.
